b. Concerns to address this year

Middle school crossing guard on the south crosswalk on 2700 E to stay an additional 10 minutes in the afternoon.

3. "One Butler"

a. Developing a plan to ameliorate divisions (real or perceived) between "neighborhood" classrooms/students/parents and DLI classrooms/students/parents
Having brainboosters together help remove division

More behavior issues with neighborhood program caused by the fact that DLI parents tend to chose the program, and hence are more likely to be involved in schooling
Some ideas to increase cohesion within the school: encourage volunteer parents to volunteer in non DLI classes (as more DLI parents volunteer than non DLI), new clubs: orchestra, choir, chess, book club, school information night during enrollment
SCC members to gauge non DLI parents to see what they feel if there's an issue
b. Convene a subcommittee/focus group to address these issues
SCC members to submit names for a subcommittee

4. Set agenda for next meeting (2/14/18, 730am)
